SIBURAN STRENGTHENS TIES WITH CHINA AUTOMOBILE

ASX RELEASE

7 OCTOBER 2015

Siburan Resources Limited (Siburan, ASX:SBU) is pleased to announce that it has formalised an arrangement with China Automobile Parts Holdings Ltd (China Automobile), for China Automobile to investigate the viability of the market in Australia for its products.

China Automobile is a company listed on the Bursa Malaysia, specializing in the manufacture of chassis components used in automobiles for transporting goods. Its product portfolio consists of five (5) categories, namely wheel-hub bolts, wheel axles, steel pins, u-bolts, and torque-rod bushings. Steel pins, u-bolts, and torque-rod bushings are components of leaf-spring suspensions, which are commonly utilized in the load-bearing rear section of heavy automobiles.

The arrangement will allow China Automobile to showcase its products in Australia through Siburan and to carry out a preliminary assessment of Australian market for its products with Siburan's assistance, with the aim of establishing a sales presence in Australia.
