## Siburan debut solid

GOLD and uranium explorer Siburan Resources Ltd has made a solid debut on the Australian stock exchange after its \$3 million initial public offer (IPO) closed oversubscribed. At 2.55pm - its first 15 minutes of trade - shares in Siburan were half a cent higher at 21 cents, up from an opening price of 20.5 cents. The Perth-based company offered 15 million shares at a price of 20 cents each through the IPO. Siburan has also proposed an options issue to shareholders within the next six months of one option for every two shares held. The options will be issued at half a cent each and will be exercisable at 20 cents, with an expiry date of September 30, 2012. Siburan said in a statement yesterday that it would immediately start exploration programs at its projects, initially focusing on its Mt Pleasant gold project north-west of Kalgoorlie in Western Australia. It also said its Goongarrie/Lake Marmion uranium project in the same region held promise. "The region is recognised as the leading gold-producing region in the world, with excellent infrastructure including the easy availability of drill rigs and analytical laboratories," managing director Noel Ong said.

A number of companies have listed on the Australian Stock Exchange recently. Department store group Myer listed last November.

Yesterday, gold and uranium explorer Siburan Resources opened and closed at 20 cents while the S&P/ASX 200 Index rose 0.08 percent.

Gerard Lighting Group will begin trading today.

Well-performing resources companies include Viking Ashanti, with exploration in southern Ghana; Southern Hemisphere Mining, with projects in the Republic of Chile; and Hunnu Coal, which is exploring for coal in Mongolia.

Provider of underground coal mining services Mastermyne floated at \$1 and has dropped to 96 cents. Miclyn Express Offshore has lost 11.6 percent since it opened for trading.
